

CGU_H_06: Field Monitoring of River Ice Processes

Conveners: Shawn Clark¹

Co-chairs: Shawn Clark, Karen Dow

¹Department of Civil Engineering, University of Manitoba, Winnipeg, MB R3T 5V6
Email: Shawn.Clark@umanitoba.ca

Session Description

This session will allow researchers to share their experiences in field monitoring of river ice processes. Presentations on field work methodology, ice monitoring program results, ice process understanding, and new innovative instrumentation techniques are welcome. Field monitoring results focusing on the effects of ice on sediment transport, ecology and the environment are also encouraged.

Primary Affiliation: CGU, Committee on River Ice Processes and the Environment

Joint Session Submission: none
