

## **CSSS\_07: Delivering healthy soils and climate resilience through policy and program delivery**

**Conveners:** Adam Gillespie<sup>1</sup>

**Co-chairs:** TBD

<sup>1</sup>Ontario Ministry of Agriculture, Food and Rural Affairs, 1 Stone Road West, Guelph, ON, N1G 4Y2. adam.gillespie@ontario.ca

### **Session Description**

Soil health and greenhouse gas reductions are linked. In the agricultural sector, governments are currently tasked with GHG reduction programs using tools which are largely economic in nature. Indeed, these programs also will help build healthier soils.

We welcome submissions, focusing on relevant fundamental greenhouse gas science, best management practices, organic matter dynamics, knowledge transfer, and program implementation. This session will include both seminars and a panel discussion.

**Primary Affiliation:** CSSS

**Joint Session Submission:** none
